Messrs. Jaraysi and Witczak:

CLOSURE CERTIFICATION FOR THE 183-H SOLAR EVAPORATION BASINS (T-1-4)

Enclosed are the completed Closure Certifications for the 183-H Solar Evaporation Basins (183-H). These certifications have been signed by an independent, registered professional engineer; by Bechtel Hanford, Inc. (BHI) as facility co-operator; and by the U.S. Department of Energy, Richland Operations Office (RL) as facility owner-operator. These signatures certify that the closure of 183-H was implemented in accordance with the specifications of the closure plan, as modified. These certifications are required by Washington Administrative Code 173-303-610(6), and were prepared in accordance with Condition V.I.B.n of the Hanford Facility Resource Conservation and Recovery Act (RCRA) Permit.

The 183-H is located in the 100-H Area of the Hanford Site. This unit operated from 1973 to 1986 as a RCRA treatment, storage, and/or disposal unit for dangerous waste. Closure activities were completed in 1996 in accordance with the closure plan.
